

What if the Best Case didn't contain your

Keywords?

Discover how **Manupatra.AI** finds Legal Meaning,
Not Just Words.

#1 *SEARCH BY LEGAL QUESTION*

Instead of:

"arbitration agreement validity"

Ask:

"Cases where courts upheld arbitration clauses despite objections to jurisdiction"

- ✓ Search naturally
- ✓ No Boolean strings
- ✓ No keyword guessing

Manupatra.ai understands legal intent.

#2 *FIND CASES BY MEANING, NOT WORDS*

Courts often discuss the same legal principle using different language. One may say *misrepresentation*, another *inducement*, a third *suppression of material facts*.

Different words, same legal concept.

Manupatra AI Search:

- ✓ Understands legal concepts
- ✓ Identifies related reasoning
- ✓ Retrieves conceptually similar judgments

Even when exact keywords are missing.

#3 *DISCOVER CASES YOU WOULD HAVE MISSED*

Traditional search only finds what you ask for.

AI Search helps uncover:

- ✓ Related precedents
- ✓ Connected legal doctrines
- ✓ Supporting judgments
- ✓ Contrasting judicial views

Find the cases hiding beyond your keywords.

#4 *GET THE RATIO FASTER*

Instead of opening 50 judgments...

Use AI-powered summaries to quickly identify:

- ✓ Key legal issues
- ✓ Court findings
- ✓ Important observations
- ✓ Relevance to your research

Spend less time reading irrelevant cases.

#5 TRACE JUDICIAL THINKING

Don't just find a judgment.

Understand:

- ✓ How courts interpreted the law
- ✓ Which precedents were relied upon
- ✓ How legal principles evolved
- ✓ Why a decision was reached

For eg

Eg Identify Supreme Court and High Court judgments after the 2017 privacy judgment recognizing the right to privacy as a fundamental right, where courts discussed the admissibility of electronic evidence under Section 65B of the Indian Evidence Act in the context of WhatsApp chats, call detail records, or digital surveillance, especially in criminal proceedings involving proportionality, procedural safeguards, or unlawful state action. Also compare how courts balanced privacy rights against investigative powers, and identify any conflicting judicial trends.

**Research the reasoning.
Not just the result.**

#6 RESEARCH LIKE A LAWYER, NOT A SEARCH ENGINE

Ask questions like:

- “Can a provisional attachment under PMLA be challenged for lack of reasons recorded?”
- “When have courts lifted the corporate veil in tax matters?”
- Compare the majority and dissenting opinions in *A.D.M. Jabalpur v. Shivkant Shukla*. How did Justice H.R. Khanna’s dissent regarding the suspension of the Right to Life during an Emergency eventually shape the Supreme Court's current interpretation of Article 21
- A pedestrian is injured due to uncovered manhole maintained by municipal authority. How have courts applied negligence and strict liability principles?

Manupatra AI Search understands the legal issue behind the question.
